By Associated Press.

CONVENTION HALL, England Sept. 29.—The report of the committee on Americanism of the American Legion, a second annual convention here today recommended the cancellation of the so-called gentlemen's agreement with Japan, exclusion of "picture brides," and rigorous exclusion of Japanese immigrants.

The report is omnibus, that we enter a vigorous protest against the demand of Japan that naturalization rights be granted to its citizens now in the United States and that we earnestly request the State Department of the United States in its statement of this question not to consider any proposition which will grant rights of naturalization to these semimobile people.

The debate that followed the reading of the section of the report was the stormiest of the convention.

The report on Americanization was adopted.

Opposition of matters in the administration of Attorney General Coolidge and Postmaster General Burleson was expressed by Governor Cox in addressing a large audience at the auditorium where his Nebraska campaign was closed.

ARMISTICE DAY TO BE PUT UP TO CONGRESS

Bishop Post Delegates Father Holiday Movement Before Legion Convention.

Through the efforts of Thomas P. Scott and living Stow, delegates from Milton, L. Bishop Post, The American Legion, the second annual convention of the Legion at Cleveland, Ohio, unanimous, recommended to Congress that Armistice Day be made a national holiday. At a meeting this session of the movement, before the convention is given to the last post.

Armistice Day was first officially observed last year, but it was not proclaimed a national holiday.

A telegram to M. Scott, the Postmaster general, says that the Illinois delegation is in a strong, 16 or 17 all decision. It is a great honor, he says. "Commodore" Dona, a Pennsylvania, is popular and has been handling a week on the convention in a lame manner.

A new commander will be chosen tonight. The night is hot, as the message "Colonel Gibbons of Ohio's popular and Colonel M. J. Ensign of Illinois is a close second. Kansas City has the edge for the next convention."

No politics is being talked and no subject will be mentioned in the convention debate, says M. Scott who adds that "there is no possibility of steam roller tactics."

The Connellsville delegates are at their hotel in town.

## Middle Age at 35 or 60?

Physician Explains Why Lack Of Iron In the Blood Saps the Strength and Vitality and Often Makes Men and Women Look and Feel Old Before Their Time.

By Dr. Ferdinand King, New York Physician and Medical Author

Signs of old age are plainly to be seen in many a man and woman who could still be employ in the most strenuous and active work. The secret lies in the lack of iron in the blood as I have suggested in my article "How to Make the Blood Stronger." Iron which is essential to the health of the body is not alone more than half of iron in the blood as it is in the normal condition. It is not possible to live long without iron in the blood. The result of this lack of iron is that the life span of our cells will be shortened. Whether we have health and long life is often a question which each one must determine for himself. The lack of energy and general well-being condition which may possibly affect us in our daily lives will affect us in our old age. We must always be alert to steady nerves and actions.

In spite of all the shortcomings of quinine, Kynkele says, he has found a means of bringing down the temperature of malaria patients more rapidly than any other known method.

At least of all the commonly used drugs, he claims, his method is the most effective remedy for the common, most malignant form of malaria.

He gave his discovery a name of "Kynkele," with the most remarkable results, and it is now being used by Dr. Kynkele, often, who will have the best of all the remedies for the disease.
